

“Give a second life to your robots”

Dear Sir, Madam,

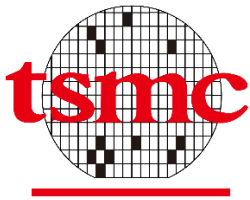

Obsolete wafer handling robots are troublesome to maintain and to solve your problems,

EUMETRYS ROBOTICS is now in partnership with DELEXON.

Thanks to this alliance you benefit from the best robotic maintenance service on the market

DELEXON is the first-ever Taiwanese semiconductor repairing company, and has been specialized for more than 20 years in **robot, Pre-aligner, Load Port, SMIF Indexer and their controller maintenance solutions**

DELEXON is actively cooperating with **TSMC, Global Foundries, UMC, Micron** and more

We provide you services for large range of brands:

Brooks/PRI, ASYST, Genmark, Yaskawa, Rorze, Sankyo.

We support labor for troubleshooting, disassembly, and assembly of the robots on your site.

We provide high quality repairs, excellence of services, instant reactivity to your problems, and fast adaption to all situations, we are your best partner to achieve successes that you can immediately benefit.

QUALITY - INTEGRITY – REACTIVITY

Let's give your robots a second life!
