# ATURNINGPOINT

## SUBMISSION OF APPLICATIONS FOR PHASE V OF THE COMPETITIVENESS CLUSTERS

The submission of the Phase V dossier marks a new era for Minalogic, which facilitates the development of deeptech technologies for a sustainable and eco-responsible reindustrialization of the country. Aligned with the objectives of France 2030 and the regional innovation strategy, this phase focuses on three strategic axes: digitalization, technological and industrial sovereignty, and decarbonation. Minalogic, building on its past successes, is determined to meet these challenges to contribute to France's sovereignty and economic security, while preserving the environment through digital technology.

## EDIH MINASMART SELECTED BY THE EUROPEAN COMMISSION

The launch of MinaSmart aims to support traditional SMEs and small

midcaps in their digital transformation in the strategic sectors of the Auvergne-Rhône-Alpes region. Building on regional excellence in AI, cybersecurity and high-performance computing, MinaSmart facilitates the European expansion of digital players. Collaboration with regional structures involved in innovation and application markets such as Tenerrdis, Techtera, Axelera, Vegepolys Valley, ENE, Digital League, Auvergne-Rhône-Alpes Entreprises and Innov'Alliance, disseminates digital innovations to traditional SMEs and strengthens synergies between the various players in the sector.

## HIGH LEVEL OF SATISFACTION MAINTAINED

The Minalogic 2022 satisfaction survey shows a high satisfaction rate of 85.3% with 80% of members who would "recommend Minalogic to a friend". The animation of the ecosystem is acclaimed at 91%. Members are increasingly satisfied in the areas of Europe, international actions and especially financing which saw an increase in satisfaction of over 10% compared to 2021.

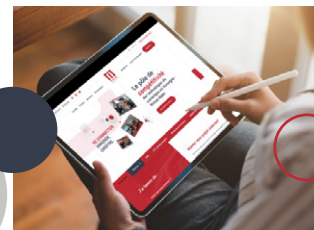

## VISIATIV, NEW PARTNER OF THE CLUSTER

Minalogic and Visiativ are partnering to drive innovation in AI, Big Data and cybersecurity, strengthening their data protection expertise. This major partnership provides companies with key resources to accelerate their growth and digital transformation while ensuring their security.

## REDESIGN OF OUR WEBSITE

Minalogic has launched a new version of its website [www.minalogic.com](http://www.minalogic.com). Designed to facilitate access to information on our events, services and themes, this new version of our website allows us to communicate better to the different communities that make up the cluster.

# GOVERNANCE

## HOMAGE

## ANTOINE PERRIN

Antoine Perrin, President of Minalogic from 2020 to 2022, died suddenly in May. As part of his responsibilities within the cluster over the past ten years - as a director, vice-president of finance, and finally president - Antoine accompanied the growth and evolution of the cluster.

Antoine was a tireless defender of the cluster model, of Minalogic, and its network. His action and spirit will be remembered by each of us for a long time.
